THE COMMONWEALTH OF MASSACHUSETTS

FORTY-EIGHTH ANNUAL REPORT

DEPARTMENT OF PUBLIC SAFETY

1010 Commonwealth Avenue

Boston, Massachusetts

I have the honor of submitting the forty-eighth annual report of the Department of Public Safety for the fiscal year ending June 30, 1969, made in compliance with the provisions of General Laws, Chapter 147, Section 1.

The following is a summary of the activities of the Divisions of State Police, Inspection, Fire Prevention, Subversives Activities, Boxing Commission, and various Boards and Bureaus of the Department for the fiscal year from July 1, 1968 to June 30, 1969:

DIVISION OF STATE POLICE

The Division of State Police is under the immediate charge of the Commissioner of Public Safety, in accordance with the provisions of Chapter 22, Section 3 of the General Laws.

This foreword is intended to highlight some of the important developments during the past fiscal year. The reader should refer to the specific reports of each part

of the Uniformed Branch for details of the various activities of the state-wide force. These comprehensive summaries are presented within the report with specific treatment of each function and its operating responsibilities.

Commissioner Leo L. Laughlin continued as chief administrator of the department during the fiscal year ending June 30, 1969. He was assisted in supervising the activities of the Uniformed Branch by Lieutenant Colonel Robert D. Murgia, Executive Officer, and Major John R. Moriarty, Adjutant.

On February 24, 1969, Commissioner Laughlin appointed Walter P. Parker as Deputy Commissioner of Public Safety. Deputy Parker, a native of Taunton, was an Executive Assistant to the former Attorney General Elliot L. Richardson and Administrative Assistant to Richardson during his term as Lieutenant Governor. He was previously employed as an Examiner for the Department of Insurance.

Deputy Commissioner Parker served in the U. S. Army during World War II as a Captain in an armored division in the European Theater of Operations. He continued his military service in the Army Reserves from 1946 through 1967, and retired from the Reserves in 1967 with the rank of Lieutenant Colonel. Deputy Parker holds the Silver Star, Bronze Star and the Army Commendation Medal for gallantry in action during World War II.

The 51st and 52nd Recruit Training Troops each completed fourteen weeks of intensive professional police education. These new officers filled vacancies created by retirements and separation from service. Fifty-nine troopers graduated on September 7, 1968 from the 51st Class, and sixty troopers graduated on December 16, 1968 from the 52nd Class. The authorized strength of the Uniformed Branch was increased, through legislation, by fifty officers during the fiscal year.

The Division took advantage of professional level training by sending key personnel to various technical courses throughout the country. One officer attended the Traffic Police Administration Training Program at the Traffic Institute, Northwestern University, through a grant from the Insurance Institute for Highway Safety, for one year. Another officer received a grant from the U. S. Department of Justice for the opportunity to work towards his Master's Degree in Police Administration at the John Jay College of Criminal Justice in New York City, for one year.

This fiscal year introduced a new era to the Massachusetts State Police, the Teleprocessing System. Massachusetts will be the first of the New England States to provide its law enforcement agencies with the most modern communications and information system.

The computer, which will be the technological heart of the Communications and Information System, will take over

the task which, over the years, was a manual and slow process of disseminating information and providing communications for law enforcement agencies of the state.

The teleprocessing System will link all police agencies together in a vast, high speed network of police information and communications. The system will provide police with instantaneous response to police inquiries, and unparalleled speed of communications. Police information will be stored in the computerized system, providing police with an inquiry ability of mili-seconds in response time.

During the 1968-69 fiscal year, the Uniformed Branch received a Federal Grant under the Federal Highway Safety Acts of 1968 to administer a chemical test program to determine the percentage of alcohol in the blood of a driver of a motor vehicle. As a result of this grant, a training program was initiated and carried out under the direction of Staff Sergeant Robert J. Fountain.

The Department was the recipient of a Federal Grant made available through the U. S. Department of Transportation, Federal Highway Administration, National Highway Safety Bureau. The grant was awarded to a Highway Safety Project which will implement the State Police's equipment with a five-seat, jet powered helicopter, capable of transporting two injured persons to the nearest professional medical facility. The project provides funds for the training of three veteran State Police Officers as pilots. The helicopter will serve

as liaison with ground patrols in coverage of the State highway system and other major and secondary roads, ariel search in conjunction with ground details, surveillance, inspection of buildings and rooftops, disasters, etc., where the services of a helicopter would be invaluable. The delivery of the helicopter is expected in September, 1969, of the next fiscal year.

STATE POLICE BUREAU OF COMMUNICATIONS

Radio System

The Massachusetts State Police operates a frequency modulation radio system that consists of sixteen 300 watt main or base stations; seven 100 watt base stations; five 60 watt base stations; twenty 30 watt base stations; three hundred and fifty-two 30, 50 and 100 watt mobile units; twenty 1.4 watt portable transmitter-receivers; loud-speaking equipment consisting of three audio amplifiers and loudspeakers and two electric megaphones.

The 300 watt main stations are so located as to give complete coverage of the entire state and are contained in cement block buildings with adjoining towers. Because these buildings are on isolated mountain tops at strategic locations, each is surrounded by a seven foot chain link fence to prevent unauthorized persons from tampering with the equipment. These stations also contain a voltage

regulator to govern the voltage feeding into the radio equipment and an auxiliary power plant. The power plant operates through a series of relays, starting automatically the moment trouble develops on the commercial power lines feeding the radio equipment.

In coordination with these main stations, two hundred and seventy-three cruisers, eleven trucks, one bus, one Command Post and one Sno-Cat, plus twenty vehicles attached to other State Agencies contain complete two-way radio sets owned by the State Police. There are also thirty-six police departments in the State that have purchased two-way mobile radios for operation on the State Police frequency 44.74 mc.

This Bureau is the State Warning Point for Massachusetts on the National Warning System. In the event of a National Emergency, we would be notified immediately by this direct line. Tests of this system are made three times a day, once during each tour of duty.

The following points in Massachusetts are members of the National Warning System:

- Massachusetts Civil Defense Agency - Framingham
- Northampton State Police
- Barnstable County Sheriff's Office
- Greenfield Fire Department
- Haverhill Fire Department
- Springfield Police Department
- Logan International Airport (U. S. Weather Bureau)
- Boston Police Department
- Capitol Police - State House
- Cambridge Fire Department
- Revere Fire Department
- Needham Police Department
- Waltham Fire Department
- New Bedford Fire Department

Pittsfield Fire Department
 Fitchburg Fire Department
 Brockton Police Department
 Massachusetts National Guard
 Worcester Fire Department
 Quincy Fire Department

An inter-department radio network on 158.97 mc now exists
 in the following departments east of Worcester:

Arlington	Lexington	Salisbury
Attleboro	Lynn	Seekonk
Barnstable County	Lynnfield	Swampscott
Belmont	Malden	Waltham
Beverly	Manchester	Watertown
Boston	Marblehead	Weston
Braintree	Marlboro	Westport
Brookline	Marshfield	Weymouth
Cambridge	Medford	Winchester
Chelsea	Metropolitan	Worcester
Danvers	Milton	
Dedham	Newton	
Dukes County	North Andover	
Everett	Peabody	Boston-State Police
Fall River	Quincy	Framingham-State Police
Gloucester	Reading	Holden-State Police
Hamilton	Revere	Middleboro-State Police
Ipswich	Salem	Mass. Turnpike-State Police

An inter-department radio network is now in operation at
 State Police Northampton. The following police departments
 are now on this network:

Agawam	Ludlow
Chicopee	Palmer
Easthampton	Springfield
East Longmeadow	Westfield
Holyoke	West Springfield
Longmeadow	Wilbraham
	Northampton-State Police

Teletypewriter System

The Interstate System is a National System, all machines
 on this system operate at one hundred words per minute. We
 have direct connections to every state except Alaska and

Hawaii. This system uses call directing codes that direct the messages to their destinations. This system is broken down into eight lines as follows:

LINE A

Connecticut, Hartford
Maine, Augusta
Massachusetts, Boston
New Hampshire, Concord
New York, Albany
Rhode Island, Providence
Vermont, Montpelier

LINE B

Delaware, Dover
New Jersey, Trenton
New York City
Pennsylvania, Harrisburg

LINE C

Maryland, Pikesville
North Carolina, Raleigh
Ohio, Columbus
South Carolina, Columbia
Virginia, Richmond
Washington, D. C.
West Virginia, Charleston

LINE D

Alabama, Montgomery
Arkansas, Little Rock
Florida, Tallahassee
Georgia, Atlanta
Louisiana, Baton Rouge
Mississippi, Jackson
Tennessee, Nashville

LINE E.

Illinois, Springfield
Indiana, Indianapolis
Kentucky, Frankfort
Michigan, East Lansing
Missouri, Jefferson City
Wisconsin, Madison
N.A.T.B. - Chicago, Illinois

LINE F

Iowa, Des Moines
Kansas, Topeka
Minnesota, St. Paul
Nebraska, Lincoln
Oklahoma, Oklahoma City
Texas, Austin

LINE G

Colorado, Denver
Montana, Billings
New Mexico, Santa Fe
North Dakota, Bismarck
South Dakota, Pierre
Utah, Salt Lake City
Wyoming, Cheyenne
Secret Service, Washington, D.C.
F.B.I., Washington, D. C.

LINE I

Arizona, Phoenix
California, Sacramento
Idaho, Boise
Nevada, Carson City
Oregon, Salem
Washington, Olympia

Mass. Department of Public Works
Armed Forces Police

During the year ending June 30, 1969, a total of 490,885 messages were transmitted over the facilities of the Massachusetts Police Teletypewriter Network. This represents an average of 40,907 messages per month.

A statistical record is maintained at General Headquarters recording the number of crimes reported and the number of cancellations relative to stolen cars, stolen plates, hit-and-run, wanted persons, missing persons, breaking and entering, holdups, lost property, stolen property, assaults, homicides and other crimes.

Many requests are received for a check on the Bureau records which result in the identification of stolen property and missing or wanted persons who are located or identified. The files are constantly searched intying together the vast bulk of information passing over the network and giving the results of these searches to other police departments to aid them.

On April 2, 1969, the State Of Massachusetts officially entered into the National Crime Information Center System of computerized data which has been established in the Department of Justice in Washington. This system has been made available to all law enforcement officers of this State.

The Massachusetts terminal of the National Crime Information Center is administered and supervised by the Massachusetts State Police and is operational on a twenty-four hour basis, serving all law enforcement agencies in the State. Its objective is to improve the effectiveness of law enforcement through the more efficient handling and exchange of documented police information.

Bureau personnel attended many meetings affecting the communications media and its effect on the State Police Communications Systems and delivered lectures at the State Police Academy to our own personnel and to local police officers.

STATE POLICE TRAFFIC BUREAU

During the fiscal year ending June 30, 1969, a total of five thousand two hundred and thirty-nine motor vehicle accidents were investigated; one hundred and six were fatalities in which one hundred and twenty-seven persons lost their lives. Two thousand two hundred and eighty-two personal injury accidents occurred in which three thousand five hundred and ninety-three persons were injured. There were two thousand eight hundred and fifty-one property damage accidents investigated.

Two thousand five hundred and forty-five accidents occurred during the hours of daylight and two thousand four hundred and sixty-six during darkness.

The weekend continued to be the most dangerous time of the week for accidents. Saturday was the most critical day with one thousand and twenty-two accidents; Friday, eight hundred and eighty-four; and Sunday, eight hundred and thirty.

Our younger drivers continue to be the group involved in the greatest number of accidents. In the twenty-one to twenty-five age bracket, one thousand six hundred and fifteen were involved in accidents; in the sixteen to twenty age bracket, there were one thousand three hundred and twenty-three accidents investigated.

Two thousand two hundred and twenty-eight copies of accident reports were mailed upon request to interested parties, and six thousand six hundred and seventy-four dollars was received by the Department Cashier for these services.

Thirty-six thousand persons were prosecuted in the courts for forty-two thousand eight hundred and eighty-six violations of the motor vehicle laws, and copies of these citations were forwarded to the Registry of Motor Vehicles, as well as copies of one hundred and eighteen thousand two hundred and thirteen warning notices and seventy-nine thousand five hundred and twenty-seven defective equipment tags. Fifty-six thousand four hundred and sixty-nine parking tags were issued from Logan Airport. A total of two hundred eighty-eight thousand one hundred and fifty-nine motorists were cited for various violations of the motor vehicle laws.

Federal grants have enabled us to move forward in many areas. As a result, we now have a radar set in every state police barracks. Also, we are ordering eight econoline super vans to be used at motor vehicle accident investigations, accident prevention and rescue vehicles. An advanced accident investigation course will soon begin, sponsored by the Federal government, and taught by instructors from Northeastern and Northwestern Universities, along with members of the Uniformed Branch, which will train two hundred and forty members in the new techniques developed in investigating accidents. A video tape project has also been approved and will soon assist in traffic surveillance, accident investigation and training at our Academy.

A federal grant for a Chemical Test Program resulted in

a training program whereby six hundred and eighty-four police officers were trained in the use of the Breathalyzer and were qualified as operators. There were twenty-four classes held, each class consisting of forty hours, which trained ninety-eight State Police Officers, five hundred and seventy-four local Police Officers and twelve Metropolitan Police Officers. One hundred and fifty-two State Police Officers are now trained as Breathalyzer Operators, and every State Police Barracks now possess a Breathalyzer and Simulator. This fiscal year eighty-six Breathalyzer-Simulator Units were purchased, with fifty-six distributed to local police departments; two to the Metropolitan Police; and twenty-eight to the State Police.

State Police arrested six hundred and sixty-six persons for operating under the influence of liquor. A total of three hundred and twenty-seven breath tests were administered and three hundred and thirty-nine persons refused to take the test. State Police Officers also administered one thousand and forty-nine breath tests for local police departments.

A federal grant, under the Highway Safety Program, brought about the purchase of a helicopter, and the training of three troopers as pilots. Because of the rapid growth of the Interstate Highway System in the Commonwealth, together with the increase in the number of vehicles on the highways, adequate surveillance and safety requires a new approach in dealing with the problems that confront the trooper on the road.

Radar has been a vital tool to combat the ever-increasing toll of accidents, and their use accounted for a total of thirty-one thousand and ninety violations. Ten "Walkie-Talkie" sets now enables each Troop to transmit without interfering with the State Police radio.

Following is an Accident Analysis and Summary for the fiscal year ending June 30, 1969:

MASSACHUSETTS STATE POLICE
TRAFFIC BUREAU

Eastman Kodak School, 2 State Police Officers	14 days

CRIMINAL INFORMATION BUREAU

During the fiscal year ending June 30, 1969, this Bureau enjoyed the cooperation of all federal, state and local law enforcement agencies. Eight thousand two hundred and forty-four notifications containing criminal information were sent to law enforcement agencies informing them of matters pertinent to their particular agency in compliance with Chapter 771 of the Acts of 1955. Ten Circular Letters were sent to all Chiefs of Police and other law enforcement agencies containing information concerning current criminal practices and suspects involved in various fields of crime. Forty-four corporate and background checks on persons and/or locations were made to obtain criminal intelligence for Bureau files and answer requests for information from other agencies.

In compliance with Chapter 347 of the Acts of 1958 concerning the reinstallation of telephones used in connections with gaming, the Bureau handled the following:

Telephones reported removed for gaming	73
Reinstallations approved after investigation	22
Notifications of gaming convictions sent to telephone companies doing business in the State	351

The Safe Break File now has one thousand one hundred and sixty-eight cases on file containing the modus operandi on each case which is available to all law enforcement agencies for their use and examination.

A Breaking and Entering File, used for evaluation and comparison of modus operandi, is being readied for computer equipment in order to assist local departments in rapid comparison of these crimes as they occur.

Officers assigned to the Narcotics Section of the Bureau conducted six hundred and fifty-six investigations, leading directly to one thousand two hundred and sixty-nine arrests in cooperation with local police departments. These officers are available to all law enforcement agencies in the Commonwealth for assistance in this specialized field.

The Courts of the Commonwealth, in compliance with Chapter 365 of the Acts of 1956 reported four thousand four hundred and sixty-eight cases involving gaming, narcotic and harmful drugs and pornography.

The Head of the Bureau serves as the Criminal Intelligence Officer for the Massachusetts State Police Conference to gather information on known rackets and racketeers and disseminate this information to, and receive like information from, other members of the Mass. State Police Administrators Conference.

The Head of the Bureau also is designated as the Criminal Intelligence Officer to work in conjunction with the Law Enforcement Intelligence Units on a national basis which coordinates criminal intelligence nationwide.

The Bureau continues to serve as a Bureau of Narcotics Intelligence in compliance with an agreement between the Massachusetts Chiefs of Police Association and the Attorney

General on December 15, 1967. The purpose of such a Bureau is to assist local police departments in the investigation of narcotic complaints, disseminate intelligence on narcotic and harmful drug offenders and act as liaison with the Federal agencies for the Commonwealth in this field. To implement this designation, the Bureau has sent daily notifications to Chiefs of Police concerning their residents arrested in other jurisdictions, and periodic bulletins containing photographs of convicted offenders of the narcotic and harmful drugs laws to all law enforcement agencies.

Bureau personnel delivered lectures to various police groups, State Police Trainees and Local Police Training Classes, to two hundred and fifty-six educational, professional, medical, religious, civic and youth groups in all sections of the Commonwealth. In addition, Bureau personnel conducted four Seminars for law enforcement personnel and a three-week school for local police officers on narcotic and harmful drugs.

All information received by the Bureau is catalogued and indexed in a twelve-way cross-reference system. Three hundred and fifty thousand tab cards in the files contain records or information on over thirty thousand persons and places involved in violations of the narcotic, harmful drug, gaming and pornography laws. A file of suspected persons and places is also kept for the assistance of investigators of any law enforcement agency.

SPECIAL SERVICE UNIT

The principal function and objective of the Special Service Unit is the investigation and prosecution of illegal gaming, liquor, pornography and prostitution.

Personnel assigned to this Unit were called upon to assist and cooperate with local, federal and out-of-state law enforcement agencies in the evaluation and dissemination of gaming and vice information and the investigation of persons suspected of participating in both intra-state and inter-state operations. Members of this Unit have been called upon for security details and confidential investigations for other law enforcement agencies. Personnel have also conducted lectures on gaming and pornography and have testified as experts in various Courts of the Commonwealth for local and federal agencies, as well as their own cases, concerning apparatus, paraphernalia, etc., relating to gaming. As a result of gaming investigations and raids, officers have also frequently been called upon to testify at local liquor licensing hearings and equity hearings.

One hundred and ninety-four arrests were made for violation of the gaming laws; sixty-two for pornography and prostitution and two hundred and seventy-five for other criminal activities. A total of one hundred and one complaints were received regarding gaming and liquor; eighteen for pornography and prostitution and twenty-two other criminal complaints. Eighty investigations were

conducted and sixty-four arrests and raids were made. A total of \$108,680.00 in fines were imposed by Superior and District Courts and eighty-six persons were sentenced to prison or to the House of Correction. A total of \$22,378.93 was seized in gaming raids. Thirty-nine stolen motor vehicles and tractor-trailers were recovered at an estimated value of \$300,000.00, and one front-end loader and backhoe for an estimated value of \$12,000.00.

MASSACHUSETTS STATE POLICE ACADEMY

The primary mission of this Academy is to provide the staff and facilities necessary for administering and conducting the written, physical and oral screening, and the basic training curriculum for all State Police candidates.

The secondary mission is to maintain the facilities necessary to conduct in-service "refresher" training programs for Trooper, Non-Commissioned and Commissioned Officers of the State Police in all basic and advanced studies in order to keep abreast of continuing changes in the law enforcement profession.

The tertiary phase of the Academy's mission is to conduct six-week courses of instruction in basic skills for selected officers of local cities and towns, and personnel assigned to other Departments of the Commonwealth.

The Academy staff will continuously analyze course material in the light of changing conditions, and staff

members will be kept cognizant of all advances in police technology. The complex of Academy buildings will be properly maintained.

The 51st and 52nd State Police Recruit Training Troops graduated on September 7, 1968 and December 16, 1968, respectively. The 46th and 47th Local Police Officers Classes graduated on February 14, 1969 and April 2, 1969, respectively.

In addition to giving lectures, courses and classes, the Academy staff also attended many meetings, classes and seminars during the fiscal year.

SUPPLY BUREAU

The Staff Captain and Supply Officer of the State Police Supply Bureau supervises the ordering and purchasing of supplies and equipment, including automobiles, motorcycles, etc., attends to maintenance of State Police Stations, motor vehicles and other property, prepares the expense budget for the State Police, and is accountable for all expenditures.

During the past year, reimbursement in the amount of \$13,094.18 for damages caused to State Police Cruisers was obtained from insurance companies. Although the cost of repairing the damages was charged to State Police Expenses, the reimbursement was made to the General Fund of the Commonwealth.

PUBLIC RELATIONS BUREAU

The principal responsibility of the Public Relations

Bureau is to provide clear and continuing communications between the Department and the public it serves. This responsibility takes many forms such as handling telephone calls from news media and the general public and in answering written requests received daily from throughout the nation.

The Speakers Bureau, composed of State Police Officers, who serve as lecturers, continued to provide an important communications service to all types of service groups, schools, and other interested organizations. A total of three hundred and twenty-five public information programs were presented throughout the state. As a result of public concern, there was a great demand for narcotic lecturers, presented by personnel of the Criminal Information Bureau.

Bureau personnel served as program coordinators at a number of official functions. This responsibility included the design and makeup of invitations and programs.

Also supervised by the Public Relations Bureau were a number of public tours through various installations of the Uniformed Branch.

State Police Exhibits were maintained at the Nantucket Agricultural Fair, Eastern States Exposition in West Springfield and the Massachusetts Safety Council's Safety Congress in Boston.

Bureau personnel were involved in daily operating responsibilities related to the Office of the Commissioner and the State Police Executive Office.

FIREARMS IDENTIFICATION BUREAU

The following is a statistical summary of the activity of the Firearms Identification Bureau for the fiscal year ending June 30, 1969:

Fatal Shooting	66
Non-fatal Shootings	48
Miscellaneous Cases	403
Consultations	640
Confiscated Weapons	570
Court Hours	795
Test Firings	2296
Microscopic Examinations	1777
Special Assignments (hours)	245
Weapons Destroyed	1121

FIREARMS RECORD SECTION

The following is a report of the Firearms Record Section for the fiscal year ending June 30, 1969:

License to Carry Firearms	52,790
License to Carry Firearms processed	52,973
Dealer and/or Gunsmith licenses processed	2,524
Permits to Possess Machine Guns processed	37
License to Carry Firearms (Temporary) Ch. 140, Sec. 131F	728
License to Carry Firearms (Resident-issued by Comm'r)	743
License to Carry Firearms applicants with record of misdemeanors	5,349
Total revenue realized	\$30,119.50
Record check of firearms by serial number	3,599
Investigations made and conducted as a result of firearms checked where record found	134
Mimeographed communications to local, state and out-of-state departments	1,801
Communications to local departments by letter or use of Form FA-12	1,033
Communications to individuals and dealers	4,292
Fingerprints classified	358
Completed investigations pending fingerprint search and name check at Bureau of Identification	52,711
Revocations due to investigations conducted	137
IEM cards keypunched	150,251
Speaking assignments	6
Total gun sales registered with Bureau by licensed dealers and individuals	37,202

Gunshot and puncture wound reports received and processed	426
Laminations for other Bureaus	452
Ammunition Dealer licenses investigated & issued	1,226
Alien permits to possess a rifle or shotgun issued	371
Firearms Identification Cards processed	102,353
Firearms Identification Card disqualification notices to licensing authorities as a result of investigations made	92
Denials of Firearms Identification Cards to individuals as result of investigation	48
Special Projects	3

MASSACHUSETTS CIVIL DEFENSE AGENCY

The Civil Defense Officer is a staff member of the Director of the Massachusetts Civil Defense Agency and is responsible for police services and keeping the Commissioner of Public Safety and the Director of Civil Defense informed of the police situation in the Commonwealth relating to Civil Defense.

The State Police Staff Captain lectured to two State Police Recruit Training Troops and conducted two classes of local and auxiliary police at Civil Defense Academy, Topsfield. Continuous yearly training programs are conducted at this installation for police members, and lectures were conducted throughout the state at police locations for regular and auxiliary units.

Inventories for the fiscal year ending June 30, 1969 have been completed in accordance with the Civil Defense Police Inventory Plan.

MASSACHUSETTS STATE POLICE AUXILIARY

The State Police Auxiliary was activated on the major holiday weekends for desk duty at the various stations throughout the Commonwealth.

Auxiliary officers responded for service during the long July weekend from July 3 through July 7. They were represented again over Labor Day from August 31 to September 2. January 1, 1969 was another occasion for the Auxiliary to offer their assistance.

Memorial services were observed on May 3, 1969 at the State Police Academy in conjunction with State Police Elks Family Day followed by the annual meeting for members of the Auxiliary.

There are presently sixty-two members in the organization.

MASSACHUSETTS STATE POLICEWOMEN

CONTRABAND AND EVIDENCE

The provisions of Chapter 138 of the General Laws, which relate to the disposition of liquors ordered forfeited by the Courts of the Commonwealth, stipulate that such liquors shall be forwarded to the Commissioner of Public Safety to be disposed of according to law. Similar provisions of law are applicable to implements of gaming seized in raiding operations under the authority of search warrants.

The following statistical data indicates the disposition of liquors and gaming implements forfeited during the fiscal year ending June 30, 1969:

Spirits received during the fiscal year	69 gals.
Spirits on hand July 1, 1969	<u>None</u>
Total	69 gals.
Spirits destroyed during the fiscal year	None
Spirits delivered to State Institutions	69 gals.
Spirits on hand July 1, 1969	<u>None</u>
Total	69 gals.
Malt received during the fiscal year	234 gals.
Malt on hand July 1, 1969	<u>None</u>
Total	234 gals.
Malt destroyed during the fiscal year	None
Malt delivered to State Institutions	234 gals.
Malt on hand July 1, 1969	<u>None</u>
Total	234 gals.
Wine received during the fiscal year	180 gals.
Wine on hand July 1, 1969	<u>None</u>
Total	180 gals.
Wine destroyed during the fiscal year	None
Wine delivered to State Institutions	180 gals.
Wine on hand July 1, 1969	<u>None</u>
Total	180 gals.

Money taken in raids and from gaming machines and turned into the Accounts Receivable of the Department for delivery to the State Treasurer, as directed by forfeiture warrants in the amount of

\$2,421.65

Forfeited weapons received from the Courts in accordance with Chapter 269, Section 10 of the General Laws

396 weapons

Weapons received from State Police, without warrants, for destruction

37 weapons

Weapons received from other police departments, without warrants, for destruction

93 weapons

Destroyed, as directed by forfeiture warrants, a large quantity of betting slips, books, pads, racing sheets and payoff slips.

Turned over to the Department of Public Health, in accordance with Chapter 94 of Section 214, General Laws, forfeited drugs, needles, etc., received from the State Police on 39 forfeiture warrants.

STATE POLICE PHOTO REPRODUCTION BUREAU

The following is a statistical report of the activities of the State Police Photo Reproduction Bureau for the fiscal year ending June 30, 1969:

	<u>Xerox</u>	<u>Photostate</u>
Documentary evidence submitted for copy-checks, letters, bills, etc.	10,000	200
Maps, blueprints, etc.	200	100
Miscellaneous reproduction	170,000	1,200
	<u>Multilith</u>	
Multilith reproduction	2,300,000	
Circulars - sex, wanted, missing, escapees, etc.	520,000	

STATE POLICE DETECTIVE BUREAU

State Police Detective Lieutenant Inspectors perform the duties incidental to the work assigned to the Detective Bureau by the Commissioner, relative to the investigation of crimes, the detection and arrest of criminals, the collections and assimilation of evidence for prosecution, the preparation for trial and prosecution of cases before the court, the gathering of evidence of the commission of crime for the purpose of enforcing the laws of the Commonwealth. Detective Lieutenant Inspectors of the State Police are vested with the statutory responsibility to assist the Attorney General, District Attorneys and magistrates in procuring evidence in the prosecution of crime and in the pursuit of criminals.

The statistical summary of the State Police Detective Bureau for the fiscal year ending June 30, 1969 follows:

The Commonwealth of Massachusetts

DEPARTMENT OF PUBLIC SAFETY

BUREAU OF IDENTIFICATION

The Bureau of Identification is a depository for material and information on criminals. This material consists of fingerprints, palm prints and photographs which are classified and filed by established systems which allow for quick retrieval and dissemination. The variety of information in the Bureau's files is voluminous - samples of handwriting, physical descriptions, lists of criminal associates, descriptions of scars, marks and tattoos, etc., social security, armed service and telephone numbers, names of relatives, friends and correspondents of criminals, etc.

The Bureau has been using electronic data processing for fifteen years, including machine searching of fingerprints.

Bureau personnel assist witnesses in viewing photographs and making composite sketches of suspects through the use of the Identikit.

All material and information in the Bureau is contributed from all over the country and from many parts of the world, and this information is available to any law enforcement agency or justice agency.

The Bureau publishes and distributes an Identification Bulletin which advises law enforcement and justice agencies and the Department of Correction concerning sex offenders, missing and wanted persons, parolees, stolen articles and other items of interest.

One hundred eleven thousand eight hundred and fifty inquiries were handled by the Bureau from various agencies by mail, telephone, teletypewriter or in person.

Bureau personnel participated in major investigations in phases of modus operandi and single fingerprint activities, in-service technical training to law enforcement and identification personnel, lectures to various groups, technical meetings, research and study.

STATE POLICE CHEMICAL LABORATORY

The Department of Public Safety Chemical Laboratory is charged with performing all of the forensic toxicology, fire and explosive chemistry, and racing chemistry for the state and criminalistics for all the state except for the City of Boston. In addition, a project to train Breathalyzer operators was assigned to this laboratory.

Laboratory personnel completed the following analyses during the fiscal year ending June 30, 1969:

Criminalistics Cases, including State Fire Marshal's Office	808
<u>(Non-Fatal--Shooting, Stabbing, Beating, Sex Offenses, Poisoning, Automobile, Burning, Abortion).....</u>	165
<u>(Against Property--Explosions, larceny and robbery, malicious destruction, breaking & entering and/or larceny, animal poisoning, automobiles, fire and miscellaneous).....</u>	441
<u>(Law & Order - Safety--Explosives, investigations of premises and materials for safety, attempted jail break, food, drugs, poison suspected, gaming, lotteries, Miscellaneous).....</u>	202

Cases submitted by the Medical Examiners and State Police Pathologists, including homicide investigations

1251

(Fatal--Shooting, stabbing, beating, burning, asphyxia, poisoning, automobile, abortion, miscellaneous)

Cases Submitted 2059

Toxicology Determinations

DIVISION OF FIRE PREVENTION

The Division of Fire Prevention is under the charge of a Director known as the State Fire Marshal. Under the executive and administrative supervision of the Commissioner, the State Fire Marshal administers and enforces the provisions of Chapter 148 of the General Laws.

The functions of this Division are fire prevention and fire investigation. Investigations relative to fire and arson are conducted by detective lieutenant inspectors, explosives technician and fire prevention engineer.

All fires are reported to the Division for investigation when the local fire authorities cannot determine the cause, or the fire is believed to be of a suspicious origin, or caused by a violation of the law. Fires of over one hundred dollars damage are reported and these reports are available to insurance companies and interested parties. A compilation of causes, location by city or town, and total dollar loss is forwarded to the Commissioner of Insurance annually.

Department personnel discuss matters of fire prevention with architects, builders, oil companies, blasters and explosives dealers and consult with fire officials. The Division is the issuing authority for licenses and permits covering certain hazardous activities.

The following is a statistical report of the activities for the fiscal year ending June 30, 1969:

Investigations

Fires	4292
Fires (continued investigations)	2002
Bomb hoaxes and threats	20
Explosions	59
Explosives, Storage of	8
Explosives, Use of	8
Explosives, Transportation of	9
Flammable Fluids, Storage of	20
Flammable Fluids, Use of	18
Flammable Fluids, Transportation of	14
Licenses and Permits	12
Miscellaneous	29

Inspections

Explosives, Storage of and Use of	226
Explosives, Transportation of	241
Flammable Fluids, Storage of	47
Flammable Fluids, Use of	8
Flammable Fluids, Transportation of	609

Miscellaneous

Certificates of Competency (Fireworks) Issued	18
Certificates of Competency (Blasting) Issued	150
Certificates of Approval of Tank Trucks Issued	187
Disposal of Fireworks, Explosives and Bombs	216
Pickup of Explosives and Fireworks	329
Sprinkler Hearings	27
Fire Inquests and other hearings	12
Summonses Served	43
Samples Submitted to Laboratory	201
Photographs, Use of	191
Radio Broadcasts	4

Arrests

Arson and related crimes (persons)	79
Arson and related crimes (counts)	120
Convictions for arson and related crimes	27
Cases pending in court	43
Cases found not guilty	3
Cases Dismissed	6

DIVISION OF SUBVERSIVE ACTIVITIES

The Division of Subversive Activities, established by Chapter 650 of the Acts of 1954, Chapter 22, Section 3, is a Division created to receive reports of subversive activities within the Commonwealth, to investigate such reports, to maintain records, to cooperate with the law enforcement agencies of the Commonwealth and to report annually to the Commissioner of Public Safety and to the Governor.

This Division conducted three hundred and three investigations relative to complaints in regards to subversive activities.

The Division acts as a central depository for information relative to all of the activities of the Communist Party and Subversive organizations. A file is kept of peace groups, civil rightists and other such groups where, due to their enthusiasm, they might have a tendency to adopt or show a policy of advocating the commission of acts of force or violence to deny other persons their rights under the Constitution. These files are kept up-dated by communications with the Federal Bureau of Investigation, the House Internal Security Committee, Subversive Activities units in other states and decisions of the United States Supreme Court.

The files in this Division have grown to such an extent that the Federal Bureau of Investigation, Immigration and Naturalization Service, Department of Defense, U. S. Army Intelligence, Federal Civil Service Commission, Treasury Department, several departments of the Commonwealth, Industrial Plants and Educational Institutions now clear with this Division on security checks. Requests for investigations, or assistance in investigations, received from various police departments, Federal Bureau of Investigation, House Committee on Un-American Activities and the Subversive Activities Control Board, complied with such requests.

Members of the Division attended demonstrations conducted in the area by various groups. Note was made of the leaders and organizations participating, occasionally photographs are taken, the persons identified, and a file was made.

The Division is continuing to compile and tabulate a check on new organizations in the Civil Rights area so as to be aware of any inclinations toward communist-front activities or the infiltration into these organizations of known communists or communist sympathizers.

During the past year, as a result of the increased activity of the Communist and Subversive Groups in racial demonstrations throughout the country, this Division has kept a watch on these developments so as to note any trend toward that end in Massachusetts.

During the past year, this Division continued to submit information relative to subversive organizations and individuals to several local police departments who are in the process, or have started, Intelligence Units within their respective departments.

Members of this Division lectured on the subject of Communism and Subversive Activities at the State Police Training School, Framingham, and before local and state police classes.

BUREAU FOR THE INSPECTION OF PLANS FOR THE
STORAGE OF FLUIDS

The storage of petroleum products and all other fluids, other than water in above-ground storage tanks or containers in excess of ten thousand gallons capacity, is carried out under specifications for construction, installation and maintenance prescribed by statute laws and regulations. The greater part of this storage is maintained at the large bulk stations of the major oil companies, particularly at railheads and waterfront plants.

A total of eighty-six tanks were covered by permits issued by the Commissioner of Public Safety for the year ending June 30, 1969, and said tanks will contain 74,564,196 gallons of various products, as follows:

<u>Tanks</u>	<u>Storage Of</u>	<u>Gallons</u>
5	#6 Fuel Oil	370,740
8	Petroleum	71,530,200
9	Propane	297,000
2	Tallow	488,406
2	Carbon Dioxide	60,000
40	Lubricating Oils	800,000
4	Jet Fuel	100,000
1	#2 Fuel Oil	330,000
1	Transformer Oil	67,000
6	Industrial Chemical	95,100
1	Asphalt	15,100
1	Sodium Hydroxide	42,150
1	Molten Sulfur	100,000
2	98% Sulfuric Acid	130,000
2	30% Oleum	
	(Fuming Sulfuric Acid)	87,500
<u>1</u>	<u>Transil Oil</u>	<u>51,000</u>
86		74,564,196

The plans and specifications for such tanks, including their foundations, footings, supports, dikes, etc., are submitted to this Department for approval before permits for construction are issued by the Commissioner of Public Safety.

DIVISION OF INSPECTION

The Division of Inspection, under the executive and administrative supervision of the Commissioner of Public Safety, is in charge of a Director designated as the Chief of Inspections, who directs the enforcement of the provisions of Chapter 143 and 146 of the General Laws.

The provisions of Chapter 143 of the General Laws, which are enforced by the Building Inspectors, apply to

the examination and approval of plans for the construction of public buildings; the erection, alteration, inspection and use of certain buildings, the inspection and approval of elevators in cities and towns having no building inspection department, and the enforcement of laws, rules and regulations governing the use of the cinematograph and similar apparatus for the exhibition of motion pictures. Building Inspectors also conduct examinations of applicants for licenses as motion picture operators and have supervision of all motion picture projection booths throughout the Commonwealth and the inspection of safety film for use in special exhibitions.

The provisions of Chapter 146 of the General Laws, which are enforced by the District Engineering Inspectors, apply to the inspection of certain steam boilers and their appurtenances, both internally and externally, and to ascertain the general condition of the boiler and its appliances while the boiler is under steam; also, to see if they have the proper appendages for safety, as prescribed by the Board of Boiler Rules.

The Engineers' and Firemen's license law is also enforced by the District Engineering Inspectors and is a valuable contribution to public safety. Much of the time of the Inspector is given to the examination of applicants for certificates of competency as inspectors of steam boilers in the employ of authorized boiler insurance companies.

The following is a recapitulation of Boiler, Air Tank and Refrigeration Inspections, Engineers' and Firemen's

License Law and Oil Burner Technicians' License Law from
July 1, 1968 to June 30, 1969:

<u>Inspections By</u>	<u>Boilers</u>	<u>Air Tanks</u>	<u>Refrigeration & Air Conditioning Sys.</u>

PRIVATE DETECTIVE AGENCIES

Persons or corporations engaging in the business, which is commonly transacted by private detectives, are required to obtain a license to do so from the Commissioner of Public Safety.

The provisions of law, relating to such licenses, are found in General Laws, Chapter 147, Sections 23 to 30.

Each applicant is thoroughly investigated before approval is given to the application. Upon approval, and before a license is issued, the applicant is required to file a bond of \$5,000 at this Headquarters, conditioned upon a proper and legal transaction of the business to be licensed.

During the fiscal year ending June 30, 1969, the following licenses were issued:

Originals	34	@ \$500.00	\$17,000
Renewals	118	@ \$200.00	<u>23,600</u>
			\$40,600
Current Year Original Refund			\$500

STATE BOXING COMMISSION

The State Boxing Commission consists of three members to be appointed by the Governor with the advice and consent of the Council.

The duties of the Commission include the supervision of all boxing exhibitions held in the Commonwealth and the regulations of boxing. The Commission is responsible for the enforcement of Chapter 147, Sections 32 to 47, inclusive. The Deputy Commissioner of the Department of Public Safety is the Secretary of the Commission by statute (Chapter 22, Section 12).

The number of professional clubs conducting boxing matches and exhibitions was ten, and the number of professional exhibitions held was forty-two.

Receipts from license fees (all sources)	\$2,655.00

Comptroller

CONCLUSION

In submitting this report, I wish to express my sincere appreciation for the service rendered by the entire personnel of the Department and to extend to all other Departments in the State service my genuine thanks for their cooperation and assistance.

L. L. Laughlin
L. L. Laughlin
Commissioner

BOARD OF BOILER RULES

During the past year, five regular meetings were held and two semi-annual public hearings were held in compliance with the requirements of Chapter 146, Section 3, of the General Laws, Tercentenary Edition as amended.

Eight petitions were considered by the Board; six granted, one given leave to withdraw by reason of lack of jurisdiction by the Commonwealth and one was rejected by the Board because it was in violation of the law.

The Board is continuing its process of reviewing the rules to insure uniform standards for the design, construction and operation of pressure vessels that come within the scope of Chapter 146.

On March 5, 1968, Mr. John J. Lynch of Winchester was sworn in as a member of the Board for a period of three years commencing March 1, 1968. On May 1, 1969, Mr. Joseph Matthews was sworn in as a member of the Board for a three-year term. On February 3, 1969, Mr. John K. Olsen was appointed as Chairman of the Board of Boiler Rules.

BOARD OF ELEVATOR REGULATIONS

During the fiscal year ending June 30, 1969, the Board held thirty-six regularly scheduled meetings and three sub-committee meetings. Two statutory public hearings, required by Chapter 143 of the General Laws, were held on October 2,

1968 and May 7, 1969. On April 16, 1969 an advertised public hearing was held to consider general revisions of ELV-2 and ELV-1 Revised, and forty-six amendment proposals were offered by the Board, and attending parties were given time and opportunity to suggest changes and clarifications of suggested proposals and to express opinions on further improvement and refinement of code requirements.

Fifteen petitions for variances and appeal hearings were requested and filed by firms and individuals. Eight variance requests were granted and one given leave to withdraw. Six appeal hearings were held; three granted, one denied, one given leave to withdraw and one considered to be outside the scope of the Elevator Regulations.

Numerous amendments to the various portions of the elevator codes have been discussed and studied by the Board and received full consideration at statutory and public hearings in preparation for filing such changes, thus keeping the elevator codes abreast of technological changes and endeavoring to provide a high standard of safety.

The Board reviews elevator accident reports in an effort to pinpoint accident causes and thus provide avenues for improvement of safety.

The Board received many communications for information relative to code definitions and enforced safety requirements on elevators, etc. The Board endeavored to assist

all interested parties in the understanding of the Massachusetts code requirements in an effort to promote increased safety and the reduction of accidents involving elevator equipment and improper useage.

While the Board does formulate standards directed to safer useage of elevators and allied equipment, particular improvement is required in the field on older installations, and by all who install, control, work or die on elevators

BOARD OF ELEVATOR APPEALS

The Board of Elevator Appeals, established in accordance with the provisions of Chapter 439 of the Acts of 1959, consists of the following:

L. L. Laughlin
Commissioner of Public Safety

James A. Broyer
Representative of Labor

Donald L. Cummings
Consulting Engineer

William F. Fitzgerald
Representative of a Liability Insurance Company

Donald Jacobson
Representative of Manufacturing Plant Owners

Raymond J. Lord
Secretary, designated by Commissioner Laughlin
to serve in his stead

In accordance with the by-laws, meetings were called for September 12, 1968; December 12, 1968; March 13, 1969; and June 12, 1969.

The function of the Board of Elevator Appeals is to hold public hearings on appeals of persons aggrieved by decisions of the Board of Elevator Regulations. Any person aggrieved by the Board of Elevators Appeals' decision may appeal to the superior court sitting in equity for the county in which the building or installation concerned is situated.

Mr. George Campbell, Office of Planning and Program Coordination, met at Departmental Headquarters on February 6, 1969, with Mr. Raymond J. Lord, Secretary, to discuss the proper place in the structure of State Government of the Board of Elevator Appeals under the proposed reorganization, and it was agreed that the Board properly belonged in the Department of Public Safety.

BOARD OF TELETYPEWRITER REGULATIONS

The Board of Teletypewriter Regulations, appointed by the Governor, pursuant to the provisions of the General Laws, Chapter 22, Section 9F (enacted by Chapter 474 of the Acts of 1953) consists of the following:

Leo L. Laughlin
Commissioner of Public Safety
Colonel, Massachusetts State Police
Chairman

Charles F. Hart
Chief of Police
Lawrence Police Department
Member

Joseph B. O'Kane
Chief of Police
Weymouth Police Department
Member

The Massachusetts Police Teletypewriter System consists of one hundred and twenty-three Departments. The system operates at a speed of seventy-five words per minute.

During the fiscal year, Lieutenant John J. Murphy, Communications Bureau, Massachusetts State Police, instructed the 46th and 47th class of local police officers in the operation of the teletype system at the State Police Academy in Framingham.

The facilities of this system were used to announce Civil Defense Exercises. This system is considered a vital link in the dissemination of alert messages to the citizens of the Commonwealth. The Governor's emergency Communications Commission and the Massachusetts Civil Defense Agency have expressed great enthusiasm for this system as a media for alerting on a state-wide basis.

During the fiscal year ending June 30, 1969, a total of 490,885 messages were transmitted over the facilities of the Massachusetts Police Teletypewriter Network, representing an average of 40,907 messages per month. There are sixty-three Municipal Departments connected directly to the switchboard at State Police Headquarters.

BOARD OF STANDARDS

During the fiscal year ending June 30, 1969, the Board of Standards held thirty-three regular meetings and five sub-committee meetings. In compliance with statutory requirements,

two public hearings were held as required by the General Laws, Chapter 143, Section 3-B. The Attorney General's Office forwarded requests from various cities and towns to either review or request building codes as adopted at town meetings. The Board reviewed eight town codes and three town amendments, and after review and discussion, suggested changes were made and returned to the Attorney General's Office for further processing and notifying the towns involved.

Board members, either individually or collectively, assisted inspectors of the Division of Inspection within the Department of Public Safety relative to questions pertaining to various sections of STD-10 - "Board of Standards Building Code."

One of our Board members attended the Boston Police Department's meeting on security locks, at which time a film was shown entitled, "The Door Was Locked." As a result of this visit, a similar demonstration was put on within the Department, and members of the State Police and Building Inspectors attended. After the demonstration and film, a discussion followed with many questions being asked by the representatives of the Schlage Lock Company. As a result of the Security Lock Law being put into effect, and as interpreted by some town officials, Senator Ames contacted the Board and requested information as many apartment owners were distressed over some interpretations. The Board assisted the Senator in clarifying some of the questions raised by him.

As the result of roofs collapsing because of snow, the Board reviewed and made contemplated changes to forestall future collapses in buildings now under construction.

The present task of the Board is reviewing our present code and upgrading said code according to B.O.C.A. (Building Official Conference of America).

BOARD OF SCHOOLHOUSE STRUCTURAL STANDARDS

The Board of Schoolhouse Structural Standards submits its fourteenth annual report for the fiscal year ending June 30, 1969. Twelve regular meetings and three sub-committee meetings were held, plus several other work sessions.

The new "Building Regulations for Schoolhouses" on which a public hearing was held on June 26 (continued on July 12), were adopted by the Board and filed with the Secretary of State on December 18, 1968.

The Board held its annual public hearing on March 15, 1969 to consider changes in the Building Regulations and on May 15, 1969, the Board concluded its deliberations on proposed changes and forwarded the adopted amendments to the Commissioner for transmittal to the Attorney General and filing with the Secretary of State.

It has been the policy of the Board in revising and updating the "Building Regulations" to conform to the Basic Building Code of the Building Officials Conference

of America, a nationally recognized independent code writing body. It is expected this will eventually lead to a uniform Building Code for the entire Commonwealth.

BOARD OF EXAMINERS

The membership of the Board of Examiners, for the licensing of persons engaged in Construction, Maintenance and Repair of Elevators, appointed in accordance with the provisions of General Laws, Chapter 143, Section 71A, is as follows:

Brandon Powers, Chairman

Pasquale P. Pizzano, Member
(State Building Inspector)

James F. Fagan, Member
(State Elevator Inspector)

The Board conducted examinations of applicants once a month and regular monthly meetings were held. Two examinations were conducted in the Fall River, Worcester, Salem and Lowell offices to accommodate applicants residing in these locations, and out-of-state applicants. Four examinations were held at the Boston office.

Sixty-three applicants were examined for licenses as constructor, maintenance man and repairman of elevators and fifty licenses were issued. In addition, three persons supplied satisfactory proof that they were qualified in accordance with the provisions of Section 71B, Chapter 143,

G.L., as amended, and were granted licenses without examination in compliance with the provisions of said section.

Notices of the dates of examinations to be held during the calendar year 1969 were distributed and posted throughout the Commonwealth.

BOARD OF FIRE PREVENTION REGULATIONS

The Board of Fire Prevention Regulations, appointed pursuant to the provisions of the General Laws, Chapter 22, Section 14, consisted of the following members:

Samuel Gronich, Chairman
Representative of Electrical Contractors

V. Carlisle Smith, Clerk
Representative of a National Organization of
Professional Chemical Engineers.

Joseph E. Lawler, Jr., Assistant Clerk
Representative of a National Organization of
Fire Underwriters.

Frederick J. Lawson
Representative of a National Organization of
Electrical Engineers.

Joseph W. Mannix
Inspector of Wires

Edward B. Callahan
Head of a Fire Department

Frederick W. Johnson
Representative of a National Organization of
Mechanical Engineers.

Joseph B. Corletto
Representative of Owners of Buildings Subject
to the Provisions of Chapter 143 of the General
Laws.

Ralph L. Garrett, Member, Ex Officio
State Fire Marshal

Mr. Corletto was appointed to the Board of Fire Prevention Regulations in February, 1969, replacing Mr. Robert M. Malloy whose term expired.

The Board conducted twenty-five scheduled meetings in addition to two statutory public hearings on the first Thursday in October, 1968, and May, 1969, for a total of twenty-seven meetings.

Due to the increased workload of the many changes in FPR 11 (Mass. Electrical Code) the chairman appointed a permanent Electrical Subcommittee, and said subcommittee held two additional meetings.

The following rule changes were made in the regulations and are now finalized and awaiting the scheduling of an advertised public hearing:

Elimination of hazardous conditions created by underground flammable liquid storage tanks upon the temporary or permanent cessation of business.

Elimination of hazardous condition created by the fuel tank of an unused or abandoned motor vehicle.

Approval of certain types of reinforced fibre glass piping for the underground conveyence of flammable liquids.

Complete review of FPR 11 (Mass. Electrical Code)

Additions and deletions of words and changes in phrasing in all regulations to clarify meaning and intent of original rule.

BOARD TO FACILITATE THE USE OF
PUBLIC BUILDINGS BY THE PHYSICALLY HANDICAPPED

This Board was established by Chapter 724, Acts of 1967, and became operational on February 4, 1968, consists of the following members:

Benjamin Tessler, Chairman
Francis Liberatori, Clerk
Joel M. Samuels
J. D. Keith Palmer, M. D.
Robert L. Stetson
Joseph Yantosca, Representing the Commissioner of Public Safety
Benjamin Fritz, Representing the Commissioner of Administration
and Finance

Twenty-six regular meetings were conducted during the fiscal year ending June 30, 1969. From July 1, 1968 to October 28, 1968, the Board was in the process of drafting regulations to make public buildings accessible to physically handicapped persons. On November 18, 1968, an advertised public hearing was held for the purpose of approving the new regulations for the handicapped. After the hearing, there were certain modifications made in the regulations, and the regulations became effective in December of 1968.

Since the approval of the regulations, the Board has met regularly to hear appeals on requests for waivers of certain sections of the regulations.

The Board is now in the process of drafting new regulations for the handicapped in public housing.

The function of the Board has been to eliminate "Architectural Barriers" for the handicapped in buildings built by public funds and to eliminate these barriers in all public buildings using public funds in their construction.

RECREATIONAL TRAMWAY BOARD

The Recreational Tramway Board was established by Chapter 565 of the Acts of 1968, granting authority to formulate rules and regulations for the safe installation, maintenance and operation of recreational tramways. This bill was signed into law on July 11, 1968 by Governor John A. Volpe.

On October 30, 1968, Governor Volpe appointed the following members:

John C. Conniff, Chairman
George J. Lippman, Clerk
Harold Morley, Jr.
William E. Soares
James F. Fagan, Representing Commissioner of
Public Safety

Since March, 1969, the Board held regular monthly meetings for the purpose of formulating a code of safety standards for the construction, operation and maintenance of tramways within the Commonwealth. The primary concern of this Board is with ski lifts. The U.S.A. Standard B77 Code, along with the comprehensive safety codes from the states of New York, New Hampshire and Vermont are being used for the basis for formulating our Massachusetts code. We have received valuable assistance from the Tramway Boards in these neighboring states.

Upon completion of the safety code the Board will then be concerned with setting up a procedure that will enable an annual inspection of all ski lifts within the Commonwealth.

It is the purpose and aim of the Recreational Tramway Board to prevent unnecessary accidents and to assure the public that ski lifts and tramways being used are safe.
